

ROHAN SINGH

JAVA WEB DEVELOPER

7739803214 | snghrohan000@gmail.com | [Github](#) | [LinkedIn](#)

PROFILE

Software developer with a strong foundation in backend technologies and web application development. I have crafted multiple projects that not only showcase my programming expertise but also reflect my commitment to delivering seamless user experiences.

EXPERIENCE

Girikon Pvt. Ltd.

Software Trainee

July 2025 – Present

PROJECTS

Shophub

- A responsive product management web application where users can add, edit, delete, and view product details with image support.
- Integrated modals for seamless UI interaction and robust backend management.

Saarthi

- Developed as an academic final year project during MCA.
- Led the team in building a SPOC registration portal with AISHE code validation and secure login for college representatives.

SKILLS
